**Subject:** RE: regarding Mark Anderson leave/suspension

Good Afternoon,  
I'm following up on my email from Friday. Where do things stand re: the possibility of Mark A. taking a medical leave?  
I understand that your meeting may not be until later this afternoon. I will be in and out of the office prior to the break; I will respond as I am able.  
All best,  
~K

Good Afternoon, Mark-

Thanks for your email. What you've laid out sounds reasonable. I will check in on Monday (via email) to see where things stand.

I've confirmed with Anne Hudak, Mark's undergraduate dean: if Mark were to take a Medical Leave, that would define his status with the College, rather than the current status of "Suspended".

Hope you have a good weekend,

Katharine Strong

Katharine,

I just met with Mark Anderson and he has signed a release for me to communicate with you about the possibility of his taking a leave. As I have shared with you last week, I do support Mark taking a leave to address medical issues. Mark plans to research potential treatment options this weekend and we plan to meet again on Monday for him to make a decision about whether that is something he wants to do. Mark is hopeful that if he chooses to take a leave that he would no longer be suspended. I let him know that I could support that request provided that it seemed reasonable with your office.

Thanks,

Mark
